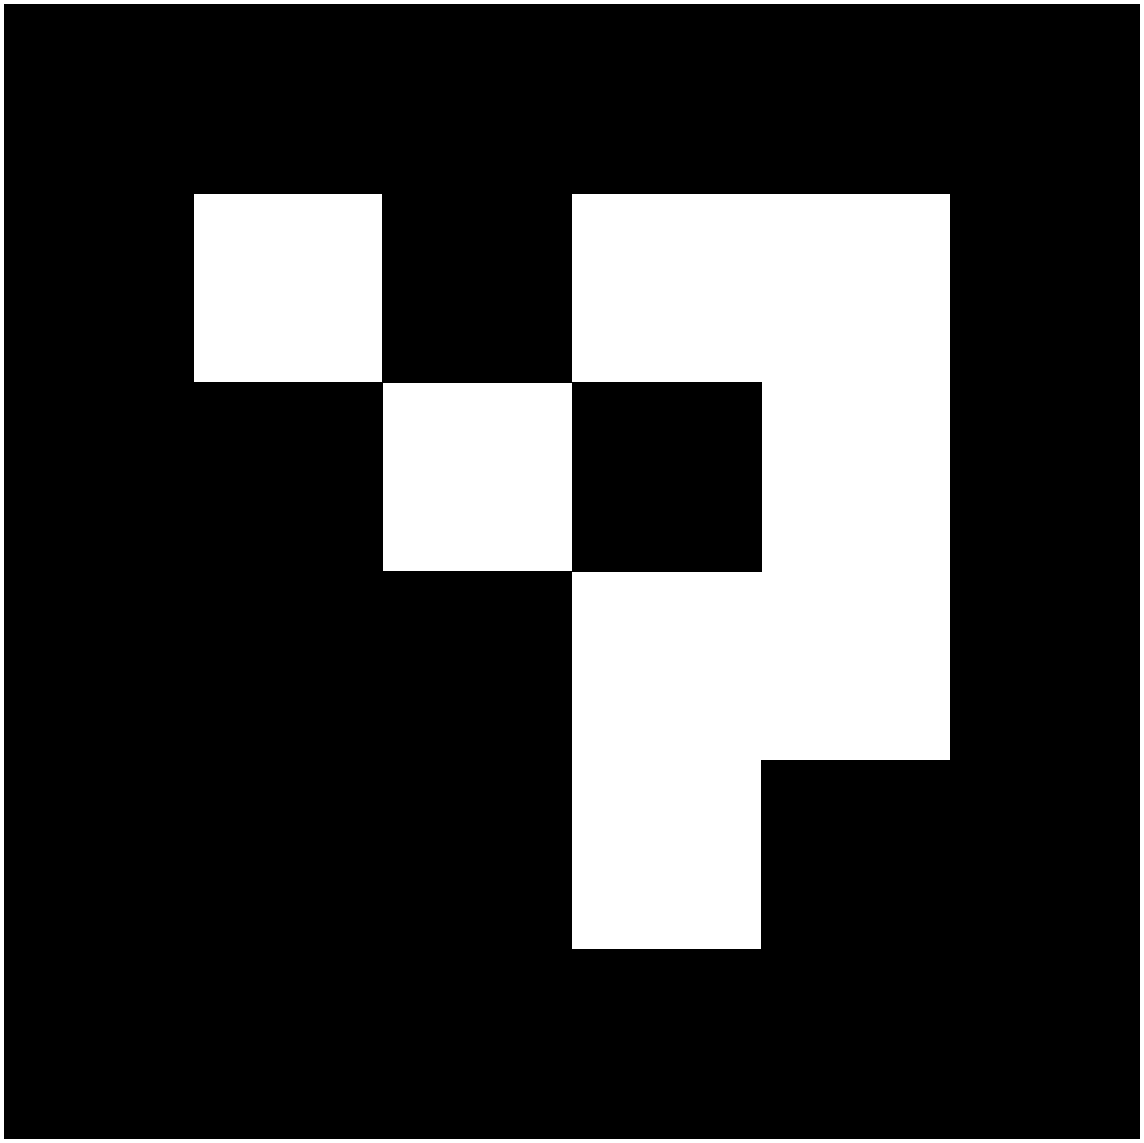
Group 88 docking tag - ArUco DICT_4X4_50, ID 0

Print at 100% / Actual size (turn OFF 'Fit to page'). Matte paper. Keep it flat.



The black square should measure exactly 15.0 cm, the same as this ruler. Measure it after printing and put the real width in MARKER_SIZE in src/hw/hw_config.py (15.0 cm = 0.150).
Keep all the white around the square: the detector needs it. Don't write on it or trim it.
